WORK4CE INC.

You not only need people. You need the right people. Let Work4ce find you the top engineering resources because that is what we specialize in.

your resource solution

Forget everything you know about staffing agencies. At Work4ce, we go beyond simple recruitment to offer expertise in human resource planning and strategy. Our processes secure motivated candidates with the correct skill sets. We provide innovative staffing options that keep you ahead of today's and tomorrow's business demands.

services The Work4 Program offers a variety of staffing options:

Work4Us – Employee Leasing

An excellent way to get the person you want without the administrative hassles. Work4ce Inc. will place one of its own employees at your organization on a contract basis, taking care of employee benefits, insurance and HR. Hassle-free hiring with professional performance.

Work4Term – Project Support

Need support for a temporary project? Let Work4ce partner with you to find the solution you need, when you need it. From project management to recruitment, Work4ce will ensure the job is done on-time and on-budget.

Work4U – Direct Hire

The most traditional service that Work4ce offers, we will find qualified individuals to meet your needs on a permanent basis.

pre-screening

When placing an employee, it is important that they are qualified and experienced. It is equally important that the company and individual share the same work ethic, values and expectations.

Our pre-screening process is quick and effective. We screen both employer and employee to ensure that you get who you need, when you need them. We ask those tough questions that get the necessary information, then perform a search of our database of professionals and present you with only the most qualified candidates.

your automotive specialist

The needs of the automotive industry are unique and demanding. We understand the intricacies of the auto production life cycle. With experience in both domestic and Japanese processes at the OEM and the Tier one level, we have an extensive pool of candidates ready to go to work where and when you need them.

Work4ce Inc. is a staffing agency with more than ten years of experience with engineering and automotive expertise.

who we are

Work4ce Inc. was started in 2004 by Keven McRae, a human resources professional with more than 30 years of industry experience, specializing in the recruitment and placement of engineering professionals in both contract and permanent positions.

At Work4ce Inc., we meet the needs of our clients while providing unique and challenging opportunities to our candidates. We attribute this success to our recruiting specialist and our experience in the engineering and automotive fields. We track the industries, join professional associations, and keep abreast of the market trends and innovations in this exciting business sector.

The Work4 Program is the foundation of Work4ce and is comprised of four critical elements:

Recruiting4U

Work4ce Inc.'s proactive recruiting philosophy provides us with a pool of pre-qualified employees to draw from. We ensure that we're ready when you are.

Screening4U

This rigid process includes a variety of screening elements. We customize our program to meet your specific requirements and ensure a good skill set match for your needs.

Testing4U

Once a candidate has been screened, we perform a variety of testing elements such as online technical testing Kolbe™, EQ Assessment, communications skills testing and performance verification.

Evaluation4U

As a part of our continual improvement process, we monitor our own performance and the performance of our contract employees.

why choose Work4ce?

No hierarchy. You deal with the same representative through the entire process

We go beyond technical skills to ensure the employer and applicant share the same goals, ethics and values

Completely customizable pre-screening process

Flexible timing and location of staff

Ongoing staff training and a commitment to continual improvement

Contact us today and explore
your possibilities!
